January 31, 2010

Dear Mr. Kaye,

Please refer to the report filed on 01/31/10. This report should have been filed as our Year End 2009 report and was inadvertently reported as a termination report.

All data that was filed in this report is correct and accurate but labeled incorrectly as a termination rather than a Year End report.

We have contacted our FEC filing software company and the Year End report will be corrected tomorrow when we are able to contact the e-filing division of the FEC for a proper override to allow us to amend the filing.

Please call if you have any questions.
